Staff Case Studies

Tumay Gunduz – Assistant Principal

Leading the Way in Education...

“CTK is an open, innovative and forward thinking sixth form which ensures every student has the best opportunities available to them. I have been privileged in my role as Assistant Principal to represent Christ the King Sixth Forms on a national platform by leading on the Centre for Excellence Maths project. Through the strong leadership of the college and the available professional development on offer, my skills in this role have dramatically improved. If you want to be at the forefront of professional action research or within a team which supports and encourages exploration of pedagogical approaches that underpin good teaching and learning, then CTK is the environment for you.”

Emmanuel Agyemang - Assistant Principal

Outstanding Teacher of Business

“CTK is a diverse community – where each member of staff is valued for their specific and individual contribution to the success of the college. This is evident in my 15 years of service and I have enjoyed every day working in this vibrant working environment. CTK encourages excellence for all who work there, and this is mainly achieved through the provision of generous CPD opportunities. Training is key to what we do at CTK and this often tailor-made to meet individual need. I have personally benefitted from the internal Leadership and Management course, where I have been supported, encouraged and mentored to complete a personal research project, which essentially prepared me for the Senior Management role I currently hold.”
